State Budget

The Republican healthcare plan threatens to create a nearly \$1.5 billion hole in state budget. Coupled with other federal budget cuts and continued unmet needs for both infrastructure and community services, Maryland faces a budget crisis. What is your approach to taxes, budget cuts, and other tools you can use to balance the state budget?

Please Explain:

Civil Rights

When local police departments enforce Federal Civil Immigration law as a request from U.S. Immigration and Customs Enforcement we see a negative impact in our overall societal well being. In the state of Maryland, over 64 percent of those deported under the program have been non-criminals. Furthermore, it has reduced participation in community policing efforts in immigrant neighborhoods.

The case of Freddy Grey taught us a lot about police accountability and the lack recourse communities have when they feel police have acted with excessive force. Communities across the state and country are thinking creatively about how to strengthen the relationship between law enforcement and residents while managing a consistent increase in officers.
